## on intra-state freight problem

# Bevis pledges help

**BELLE GLADE** - Public Service Commissioners William H. Bevis told members of the Lake Okechobee Traffic Council he believes the PSC can help solve some of the Glades area freight problems.

Approximately 40 Council members and invited guests attended the regular meeting of the council and hear Bevis expound on subjects ranging from freight service to some of the newer regulations and rates for electric and telephone service.

Council President William R. (Pat) Drake of Clewiston told Bevis the primary problem facing the Glades, which Council members wanted to discuss with him, is in the area of intra-state freight service, saying a shipment from Jacksonville takes 10 to 15 days while a shipment from Atlanta only takes three to four days to arrive.

"This is causing a lot of people in the area to go outside the state for vendors," Drake said.

"You do have a problem," Bevis

said, "and this is one of the reasons I'm against deregulation of the trucking industry, despite what a lot of people like President Carter say."

"With regulation," he went on, "we may be able to get you some service here. Without it, we couldn't. We'll do what we can. It may take a little time but I think we can help you."

Bevis went on to elaborate that the PSC can possibly lure some of the companies seeking to expand intra-state service into the area.

Richard Metz of U.S. Sugar Corporation in Clewiston asked if it might not be a better idea, however, to see what the PSC can do to force carriers who already have authority to operate in the Glades to do so, asking if there was anything the PSC could do in that area.

"You may be right," Bevis said, "we can tell them (the carriers) to use their authority or give it up."

Bevis received an indication of the size of the problem when Drake asked anyone present who has been visited during the past year by an agent of an intra-state carrier to raise their hands and there was no response.

"You mean they have agents," one man wryly commented. "I wouldn't know. I've never seen one."

John Cowart of Belle Glade said he'd rather see the number of intra-state carriers who have authority to operate in the area decreased instead of increased because there is only a given amount of business and with too many carriers, there isn't enough profit for any of them to make it worthwhile to provide the service.

In another area, which received the attention of those present, Bevis said he probably isn't in a good position to discuss the

William H. Bevis

inverted rate structure recently forced on Florida Power & Light, "because I was bitterly opposed to it."

He said he hopes FP&L takes the matter to the state Supreme Court, adding he believes there is a chance the high court could overturn the PSC ruling.

"We just don't know enough about inverted rates yet," he said. "I could even go for a flat rate structure but we were brought up with the philosophy that the more units of anything we bought, the lower the price per unit would be."

In response to a question by Belle Glade Mayor Tom Altman, Bevis said the PSC would probably begin in the near future looking at the possibility of regulating municipally owned electric systems but

## Two cornerstones to be set today

**BELLE GLADE** - Cornerstones will be laid in ceremonies today at two public buildings by the Grand Master of the Masonic Lodges of Florida in rites dedicating the new city hall and the first permanent buildings at the Palm Beach Junior College - Glades campus.

William C. Mitchell of Jacksonville, the Grand Master, will preside over the city hall cornerstone laying at 12:30 p.m. and then will move to the junior college campus at 2 p.m.

Mayor Tom Altman and Dr. Cecil Conley, vice president of the Glades campus of PBJC, said both the city and PBJC intend to hold formal dedication ceremonies for the respective buildings at later

dates. Altman said the dedication for the city hall is expected to be around December 1, when the building is opened, and Dr. Conley said the college campus is expected to be formally dedicated between mid-December and mid-January. He said classes will begin in the new building on January 9 for the winter term.

But while neither the city nor the college will be officially taking part in the two cornerstone rites, officials from each will be taking part in their role as Masons.

The welcome at the city hall ceremony will be delivered by Brother Ralph Kirk, who is a city commissioner and immediate past

mayor of the city.

At the college ceremony, the welcome and introduction of college officials will be given by Dr. Cecil Conley, who is a Brother in the Masons, and Brother Harold Manor, president of PBJC, will deliver the address to the public.

Behind each of the two cornerstones will be laid a copper box containing memorabilia significant to the appropriate institution.

In the city hall box will be a copy of this year's budget, pictures of the groundbreaking ceremony, a copy of the city charter, a list of city officials and organizational chart of the city administration and news

article of the groundbreaking.

In the college box will be a copy of an art textbook, a 1977-78 college catalog, a copy of Galeon, the student newspaper and four manila envelopes containing a registration schedule, a copy of the Feb.-28, 1972 report to the PBJC Board of Trustees by the Glades Steering Committee concerning surveys indicating the need for a campus in the Glades, selected clippings from newspapers concerning the campus from January 6, 1972 through August 19, 1977 and selected photographs of the groundbreaking and college officials studying architectural plans for the campus.

## Ag agent John Causey retires after 30 years

**BELLE GLADE** - Associate Palm Beach County Agricultural Extension Agent John Causey took advantage of his last day on the job Monday, before retiring, to expound on what he thinks the future holds for agriculture in the Glades. In between relaxed farewells offered by a number of his friends who dropped by his office, and a running conversation with Dr. Pauline Calloway, who supervises the entire east coast of Florida and

who spent the day with him, Causey said he thinks there have been two major changes in agriculture in the Glades but doesn't see another one in the near future.

He said the first major change came when cattle replaced vegetables in the area immediately around Lake Okechobee and the second was when sugar began replacing pastureland.

But through it all, he pointed out the figures on a graph

he has kept up, which covers the years from 1928 to 1975, vegetables have shown a continuous increase in production.

"Sugar cane didn't replace vegetables," he said, "and neither did cattle, (in quantities produced). All that happened was that growers started growing vegetables in different places."

He said he doesn't see the sugar cane being replaced in the near future by vegetables either, despite the low cost of sugar, citing two reasons.

"First of all, you've got to realize you've got to plan ahead four to five years for cane but for vegetables, the planning period is only three to four months," Causey

said. "Then too, I don't see the powers that be letting something like that to happen to the sugar industry."

Reminiscing over 29 years of service to agriculture in the Glades, Causey pointed out some of the more recent accomplishments as evidenced by several paprika pepper pods and a rubbin' of an ear of field corn on his desk.

"I'm really proud of that corn," he said. "There's a story behind it. Back in 1957 to 1959, they used to grow field corn here in the Glades and some growers started growing it again just recently so I started fussing with the University of

## Rotarians to amrod SR80 four-laning job

**BELLE GLADE** - The Belle Glade Rotary Club overwhelmingly approved a drive Tuesday to unit local clubs and organizations behind the push to four lane SR 80. Two members, John Turnbull and Charles Trammell, were appointed to a committee by President Bob White to meet with many of the local clubs and obtain their backing.

Club members also were urged to attend a meeting at the Holiday Inn in Belle Glade at 7:30 p.m. on Monday in which a design engineer for the Department of Transportation will be asking for input on six-laning of US 27 from the FPL office to below SR 827.

Marvin Unwin, chairman of the Canal Hazards Safety Committee and a member of the Rotary Club, spoke to the group, saying he and the committee appreciate the interest being shown, but also said he feels various clubs and organizations have not supported the Committee in the past as they should.

At many of the committee meetings, said Unwin, only a few turn up. With a topic as vital as the four-laning project, much more interest should be shown.

DOT is looking for local input, said Unwin, and the only way it can receive it is by good attendance at various hearings being called in the county.

Unwin also gave an update on the project, noting that the DOT is now obligated to purchase right-of-way. "There are lots of problems," he said. "We need to do anything we can to get people's attention."

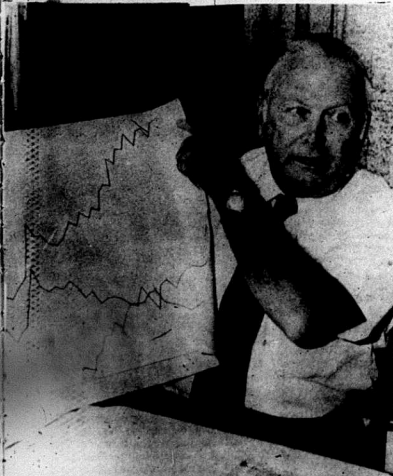

Before Unwin addressed the group, John Turnbull spoke, saying the Chamber of Commerce, of which he is a director, has asked to get the local clubs behind the project.

Charles Trammell told the Rotarians his firm, Everglades Federal, has directed its advertising agency to obtain publicity from both newspapers and television during the deplorable conditions on SR 80.

**CLEAN-UP WEEK** got off to an early and continuing start Friday for Belle Glade Sanitation workers who came to clear out this alley between two apartment buildings on Southwest Fifth Street between Avenue A and Avenue B Place...again. Sanitation director Roy Polling said the private alley is a continuing headache for his crews, often reaching, as here, as much as a foot deep in garbage thrown down by the tenants, who have a dumpster less than ten feet from where this picture was taken. Foreman Jesse Brown and sanitation workers Asbury Moran and Dudley Morgan had to douse the area with a disinfectant to keep down the strong odor caused by chamber pots being dumped in the alley rather than disposed of in bathrooms. For the first time, however, Polling said he is billing the property owner for the clean-up job.

Staff Photo

**JOHN CAUSEY** points out on a graph why he feels there will be no major changes in Glades agriculture over the next few years after his retirement Monday.

Staff Photo

The Belle Glade Rotary Club has begun a drive to unite local clubs, groups, and organizations behind the push to four-lane SR 80.

Two of the club members, John Turnbull and Charlie Trammell, both of whom are also Chamber of Commerce directors, have been appointed to a committee to visit clubs in the area and obtain their backing and support.

As Marvin Unwin, chairman of the Canal Hazards Safety Committee, which has been in the forefront of the project all along, told the club members, "the support is needed to keep the pressure on."

This is a long range goal and has been with us for a long time, and therefore interest in it, while still very much in evidence, sometimes wanes below the surface.

In order to accomplish the goal, it is vital that interests continue to be on the surface and as many people as possible keep in contact with their legislators and continue to push.

Pressure is about the only thing that will get the four-laning accomplished as soon as possible. But it's going to be a constant effort.

If you wish to have either man speak at your club meeting, give John a call at Florida First National center contact Charlie at Everglades Federal.

\*\*\*\*

Speaking of Charlie, that's him in the picture above, although I will admit he's kinda hard to identify.

No, he wasn't holding up Everglades Federal. And no, he wasn't about to break up a holdup with his blazing pistol.

The occasion was Halloween, and since Charlie is the proud owner of a Bat Masterson .44 caliber single-action revolver, he dressed the part.

Bat Masterson, as you may know, ordered a bunch of guns during his lifetime, each of which he engraved and turned around and sold for a hefty sum.

Charlie's gun is one of 100 and like he said, "If we get held up, I'm not gonna shoot this thing. I would immediately depreciate \$200 in value."

Can't blame him. He'd grudgingly allow me to hold the bright, shiny revolver, but I noticed he carefully wiped my fingerprints from its surface when he returned it to its velvet-lined box.

Lots of us have guns. But most have guns to shoot. And maybe Charlie has the right idea. I read recently, where a custom-built sporting rifle purchased for \$3,000 was sold six months later for \$8,000.

That's a pretty good hedge against inflation. But who can afford the \$3,000 for the gun in the first place?

## Cornerstones show city growth

Progress in the Glades could be measured a lot of different ways but one of the most indicative will be evident today when members of the local Masonic Lodge take part in, not one, but two cornerstone laying ceremonies.

The growth being indicated by the two ceremonies is particularly important because both are public buildings which are in a very real sense the property of us all.

The Palm Beach Junior College-Glades campus is important because it is a tangible sign Glades residents have progressed beyond the point when the community's needs can be satisfied by high schools...that a center for higher learning has passed from the luxury phase and has become a necessity.

The center has made do for some time by being housed in the National Guard Armory here, and the use of that building has been appreciated, but a permanent campus is needed and now it's just over the horizon.

The need for a new city hall is traditionally hard to justify to the residents where the need is felt, with many of those residents having the fixed belief the new building is no more than a further drain on their tax dollars which can only be justified by a need by public officials for a lasting monument.

But the fact remains city departments in Belle Glade have long since outgrown and overflowed from the present city hall and the people of the city will benefit from a more efficient administration when that administration is housed under one roof.

It hasn't been that many years ago when a proposed city hall was voted down, largely as a result of a straw poll conducted by The Belle Glade Herald which indicated the project was unpopular because of the exorbitant price tag

## We needed that

Considering the well-publicized, and real, problem of a rising illiteracy rate among high school students, the donation made last week by Mr. and Mrs. Henry Miller to buy books for Lake Shore Middle School students could be the most meaningful private contribution to education in the Glades for years.

The \$1,000 donation made by the Millers will enable many students who may have never owned a book of their own to carry as many as three home for keeps before the end of the school year.

The Millers are both home-town people who graduated from Lake Shore High School in the '60's and they said Friday this is their way of giving something back into the community which has supported them.

It's also their way, as they pointed out, to make a personal investment into the school system in which their own two children will be educated.

And if the program, which is expected by Dr. Kenneth Loveless to become a continuing program to build reading interest among the children in the community, proves a success, Dr. Loveless' decision to name the Lake Shore Middle School's reading laboratory the Miller Reading Laboratory will be well founded.

No skill in education is more basic and necessary than the ability to read. On the written language is built every other phase of learning and without it, we are reduced to the primitive method of passing on lore by word of mouth, with no more permanent record than an all-too-often faulty memory.

But if a person can't read, that written language is just so many meaningless bugs wandering over a page. And all too often, the schools over the past few years have graduated students who have been functional illiterates.

That's why the Millers' donation is so important to the schools in the Glades, because if the books they've made available to students at Lake Shore will increase interest in only a handful of those students, that will be one more handful who will become productive members of our society.

attached.

The Herald supported that viewpoint but we also knew, even then, that a new hall was needed. It's needed even more now and the citizens of this town have a reason to pride themselves in the product they'll receive.

Self-criticism is always important, when that criticism is done with an eye toward self-improvement, but it's also important to occasionally step back and take an appreciative look at self progress.

This is such a time.

## John Causey

One of the best-known figures in Glades' area agriculture left the scene Monday when Palm Beach County Associate Agricultural Extension Agent John Causey retired.

Causey served agriculture in the county for 30 years before his last day Monday, beginning back in 1948, and was honored by area agricultural people two years ago with a John Causey Day at the Belle Glade Municipal Marina.

John Causey has given much to agriculture in the area and it is through contributions such as his that any area is able to grow and progress.

He'll be remembered.

## Letters to the editor

Dear Sir:

George Washington, our first President, who was acclaimed, "Father of our Country", in his farewell address to the Nation at the end of his administrations, gave the best advice ever given a nation by any retiring leader, for future action, when he admonished, "Beware of foreign entanglements."

These words should be emblazoned around the walls of the Senate, House of Congress, and especially in the Office of the President, where they could be seen by all. These should be in extra large letters so no one could ever say they didn't see them.

Failure of our leaders to follow this advice has gotten our nation involved in every other nation's business, at a terrific cost to our nation.

We are now and have been from time to time involved in Cold wars, Hot wars, Police actions, Foreign wars, and various other actions, including two real Wars. Many of these were brought about because our leaders couldn't keep their noses out of other nations' business.

The latest action by our present Administration deals with Africa, in which we seek to force on them our way of life as declared by our President, and supplemented by our United Nations Ambassador, in his best Civil Rights days "Rabid Rhetoric" which seems to seriously irritate the people of other nations as well as our own.

Our Nation is no longer the "Land of the Free, and the Home of the Brave", but the "Land of the Spree and the Home of the Crazy". We are no more free, every time we breathe we break the law of the Ecologist, by polluting the atmosphere with "Bad Breath". We are peddling in every kind of stupid law the Ecologist can conjure up in a freeheeling mind, zipping along at 85 M.P.H. 30 M.P.H. over the legal speed limit. We proclaim

"Human rights" for other nations, and discriminate against our own people. We Are Not Free.

To throw Armistice Day into the melting pot of Veterans Day, is like combining Mothers Day with Groundhog Day. It looks like a coverup so our leaders will not have to remember all the things they have failed to keep the Faith with those who gave their lives as a sacrifice on the altar of desire to end all wars, and make the world safe for democracy. Armistice Day deserves to rank along with July Fourth, Memorial Day and Thanksgiving.

Seems a paper out in Texas tried it with a reporter who was even bigger than I am and came up with the catchy slogan of "Don't buy the Larry's lunch." Sold T-shirts and everything.

Those Texans loved it, according to Editor and Publisher, and Fearless Leader through it might go over big here too. He thought of the alternate slogan, "Don't buy Dean a dinner" but I reminded him of one problem. I was already on a fast and there ain't no protein savings in it.

Another problem I pointed out was that while Larry and that Texas newspaper was making money and building circulation, one of the integral parts of the campaign was that Larry kept warning people not to try to fast without the advice of a doctor.

And if I can't afford groceries, how the heck can I afford a doctor? Tell me that, O Fearless Leader. He just turned around and walked off mumbling something about taking advantage of the prevailing, if highly localized, depression and kill two birds with one stone. Seems the paper can't afford a doctor either.

Well, one thing about it. If this is a depression, it sure matches my mood.

## CRACKER CRUMBS

BY DEAN JONES

There are some people in this country, according to the Meat Board, a newsletter put out by the National Live Stock and Meat Board, who say American consumers too much red meat.

Course the meat people jump in to say the average per capita consumption is only 2.9 ounces a day and that's less than half the amount recommended by doctors.

What I've been trying to figure out is who the heck's been getting my share.

The claim is that much is organic and so maybe there'll be something to it.

If anyone's having trouble picking up on what I'm saying, the sad fact is that the Crumb is financially embarrassed. No, that's not entirely true. Too much of an understatement and I ain't British by any stretch of the imagination.

What I mean is that I'm broke, busted, disgusted, and don't tell anyone but can't be trusted.

Things have passed, the hard times stage to being just plain grim. As another worker in the Herald vineyard (it's gotten to the point everything I think about is food) put it, I'm so pore, right, not I couldn't afford to change my mind.

Like the man said, I'm so poor I don't have sweat on my brow. I mean it's getting tough around here. When you're sleeping one night in the bedroom, with your elbow hating over in the kitchen and you wake up about 3 a.m. to see the rat, and take away a piece of moldy cheese the rat had just stolen from a trap.

And here's the Meat Board saying we get 2.9 ounces of meat a day. I don't know who they were quoting on the claim that Americans eat too much of those juicy red steaks, or veal cutlets, or pot roasts, covered with gravy and onions...pant, gasp, drool...but it ain't me, babe.

I'm doing my part in the don't-eat-so-much-red-meat campaign, unwillingly, mind you, but I'm doing it...along with any don't-eat-so-much-vegetables-anything-else campaigns that may be floating around out there.

I was told all the way through college that no ones gets into journalism for the money because it ain't there, that the only reason was love of the truth and dedication to the cause of informing the public.

Tried to put some dedication between a couple slices of truth the other day and it may have looked all right but it didn't cut the mustard when it comes to a balanced diet, sandwiched between anything-else campaigns that may be floating around out there.

Then a couple of weeks ago, our fearless leader here came in and told me he had a great idea for a promotion, stolen with style and grace from another newspaper, of course. Something to the effect I should go on a protein-savings fast and write a column once a week on how things are going.

Seems a paper out in Texas tried it with a reporter who was even bigger than I am and came up with the catchy slogan of "Don't buy the Larry's lunch." Sold T-shirts and everything.

Those Texans loved it, according to Editor and Publisher, and Fearless Leader through it might go over big here too. He thought of the alternate slogan, "Don't buy Dean a dinner" but I reminded him of one problem. I was already on a fast and there ain't no protein savings in it.

Another problem I pointed out was that while Larry and that Texas newspaper was making money and building circulation, one of the integral parts of the campaign was that Larry kept warning people not to try to fast without the advice of a doctor.

And if I can't afford groceries, how the heck can I afford a doctor? Tell me that, O Fearless Leader. He just turned around and walked off mumbling something about taking advantage of the prevailing, if highly localized, depression and kill two birds with one stone. Seems the paper can't afford a doctor either.

Well, one thing about it. If this is a depression, it sure matches my mood.

THE FRONT ENTRANCE to the Bank of Belle Glade will be opened permanently at the end of this week. Expansion plans are

proceeding according to schedule, both in Belle Glade and with the South Bay Branch, according to president Wayne Mikell.

Thurs., Nov. 3, 1977, HERALD-OBSERVER-3A

Both main office and branch

## Bank expansion on schedule

BELLE GLADE - The expansion program of the Bank of Belle Glade is continuing according to schedule this week. Wayne Mikell, president, is very pleased with the progress so far.

According to Mikell, the front entrance will be reopened by the end of this week. Then they will proceed with the addition on the north and west sides of the building, with some work having already been started on the west side.

When this work is begun, the entrance on the north side will be permanently closed.

Two more drive-in windows will

also be opened. The slab is now being poured for them. In addition, the tubes have already been laid for the pneumatic teller system.

The expected completion date is April 1, about five months away. Mikell feels that the work so far is going as scheduled and with little disruption to customer convenience.

Plans for the South Bay branch

also continue. The plans for the building have been completed. The anticipated date for the let contract is December 1, with construction beginning on December 15.

They hope to open the branch in late winter or early spring. Dennis Milliron has been hired to be in association with the South Bay operation.

## Historical Society to meet Thursday

BELLE GLADE - The Glades Historical Society will hold a meeting in the Lawrence E. Will Museum in Belle Glade at 8 p.m., Thursday, Nov. 3.

It will be the first meeting of the 1977-78 program year, and Frank B. Morrison, president of the Palm Beach County Archaeological Society, will be the guest speaker.

Morrison will speak on the findings of the Indian Mound Excavations in the coastal areas of Palm Beach County and his talk will be illustrated with a slide presentation.

Mrs. Ruth S. Wedgeworth has presented ten 8x10 photographs to the Museum relating to the archaeological dig conducted on the Chosen Indian Mounds near Belle Glade.

The work was done in 1933 and 1934 under the direction of Dr. M.W. Stirling. The photographs were recently received from the Smithsonian Institution in Washington and are presently on exhibit at the Museum.

Members of the Historical Society need help in identifying an old photograph of a store front that will be on exhibit when the society meets Thursday.

The photo comes from Mary Collar Lineham of the Flagler Museum and the Historical Society of Palm Beach County.

The name of the store front is E.C. Thomas. Old time settlers to the west area of the county may be able to make the identification and help the Glades Historical Society solve the mystery.

Everyone is invited to attend the meeting Thursday (today) at the Glades Historical Society.

## Eggleston is trained

Navy Seaman Apprentice Forrest M. Eggleston, son of Mr. and Mrs. William E. Eggleston of 1408 NW Ave. B in Belle Glade has completed recruit training at the Naval Training Center, Orlando.

During the eight-week training cycle, trainees studied general military subjects designed to prepare them for further academic and on-the-job training in one of the Navy's 85 basic occupational fields.

Included in their studies were seamanship, close order drill, Naval history and first aid.

A 1977 graduate of Glades Central High School, he joined the Navy in August 1977.

## Roberts-Harville say wedding vows

Miss Teresa Denise Roberts and Milton Jay Harville were married in a double ring ceremony on Saturday evening, October 8th, at the First Baptist Church in Clewiston, with Rev. Bob Lynch officiating. The bride is the daughter of Mr. and Mrs. Charles L. Roberts of 413 E. Pasadena Avenue. The groom is the son of Mr. and Mrs. A.J. Harville of 709 E. Canal St.

Special songs, sung by Mary McDaniel with Mrs. Jenny Miller serving as organist, were "We've Only Just Begun", "Prayer Song", and "A Time For Us". An autumn color scheme of gold mums, white, brown and apricot carnations, autumn leaves, babies breath and greenery enhanced the setting. A spiral candelabra with yellow candles, palm trees and ferns completed the decorating effect.

The bride was attired in a floor length gown of bridal satin with an overlay of sheer illusion, and featured an empire waistline. The princess-style collar, sleeves and cathedral-length veil were trimmed in a delicate pattern of bridal lace and pearls. Her wedding bouquet featured a cascade of yellow and apricot sweetheart roses intermingled with white and brown carnations, babies breath, greenery and white satin.

Attending the bride as matron of

honor was Dinah A. Williams, with bridesmaids Pam Phillips, Laine Harville and Kim Harville. The attendants each wore a floor length gown of apricot, set off with a cape of sheer chiffon with an apricot background and contrasting colors. A large gold mum, accented with the colors of rust, brown and gold was carried by each.

The groom's father, A.J. Harville, served as best man, and groomsmen were Warren Prescott, Robin Roberts, Hoss Agromontia and Earl Linrose.

For her daughter's wedding, Mrs. Roberts wore a long dress featuring a champagne and silver skirt. Mrs. Harville, the groom's mother, chose a long gown of blue knit.

The reception was held in the Sugar and Spice Room of the Clewiston Inn where the autumn color scheme of gold, brown and apricot with white highlights was carried out. Roberts Avant was in charge of the bride's book, and servers were Joann Wilson, Betty Stalls and Wylean Arnold.

For her departure to a honeymoon in North Carolina the bride wore a rust colored pants suit of brushed denim over a white silk blouse, accented with black accessories. The couple is residing just outside of Clewiston on Hwy. 27.

The new Mrs. Harville is a 1974 graduate of Clewiston High. Harville is a 1974 graduate of Glades Central High School and employed by Gold Coast Paving Company.

Out of town guests included Claudia Scott and Bee Atkinson Oklawaha, Florida; Mary Ann from Ft. Pierce; Mr. and Mrs. Emory Arnold and Mr. and Mrs. Fred Williams from Dothan, Alabama; Paul Brackin from Ft. Lauderdale; Mr. and Mrs. J. Humphrey from Pahokee; Fred Williams from Dothan, Alabama; Bill Burt from LaBelle; Ms. Lillian Brackin

**JOHN HUGHES WAS INDUCTED** Tuesday into the Belle Glade Rotary Club, bringing the organization's membership to 54. He

# Millers donate \$1,000

BELLE GLADE—When the 1,000-odd students at Lake Shore Middle School take their turns later this year to take two, and possibly three, books home to keep, they'll have a couple of Lake Shore alumni to thank.

Henry and Harma Miller of 568 S.W. 13th St. donated last week \$1,000 to be used as matching funds supplied by a national program called RIF (Reading Is Fundamental) set up several years ago to buy books for school children in order to build their interest in reading.

"This is the biggest thing that's happened here this year," Dr. Kenneth Loveless, principal at the school, said, "and the community can be proud of Mr. and Mrs. Miller."

Dr. Loveless said the goals of the RIF program are to build interest in reading, pride of ownership and to put books in families that in many cases have never owned one.

He said he expects to be able to buy approximately 3,000 books with the \$2,000 being supplied by the Millers and RIF. They will be marked as having been supplied through RIF and distributed from the school's reading laboratory, which Loveless said is being named the Miller Reading Laboratory.

Loveless said the school will buy the books from anywhere it chooses, although there is at least one book house which offers a 40 per cent discount on books bought through the RIF program.

"This is the sort of thing so many people say they want to do for the community," Mrs. Miller said, "and so few ever get around

to doing. Both of us were born here and went to school here. We have two children who will go to school here and we've always wanted to do something like this.

"I know it sounds corny," she said, "but that's how we feel."

Mrs. Miller not only graduated from Lake Shore High, she came back after completing college and taught Spanish there before ending a nine-year teaching career recently at Glades Central to accept a position as coordinator of the bilingual education program in the West Area.

"We want our two children," Mr. Miller said, "to start school knowing how to read about education. People have been nice

to us since we started the business (he owns Miller Mortuary on Southwest Avenue 19) and we've done better than we expected the first year.

"It's good to be able to give something back to the community," he said.

Loveless said Lake Shore is the first school to be able to take advantage of the RIF program and only four or five schools in the county have taken part in it.

"But to be able to take part in the program," he said, "you first need a donation and to get that donation, you have to have people in the community like the Millers."

PACKING HOUSE LABELS representing more than 40 years of Glades history are displayed by Claude Jones and his son, Arthur, as they prepare to use the old labels for the decoration of the dining room at the

Holiday Inn's dining room, to which the public is invited at 4 p.m. today as an open house to christen the restaurant as the newly named Packing House.

FIFTH GRADE winners in the costume contest at Christian Day School's annual Halloween carnival include Angela Miller, for the Prettiest costume, Bruce Carter, for the most Original costume, and Saranell Lumpkin for the most Halloween costume.

## Christian Day winners told

BELLE GLADE—Winners in the costume competition at the annual Christian Day School Halloween Carnival were announced October 27, at the parade.

Prizes were given for the "Most Halloween," the "Most Original," and the "Prettiest" costumes in each age group.

Winners in the one through three year olds included: Tiffany Ward, for the Most Halloween, Chris Cunningham, for the Most Original, and Kim Crowe, for the Prettiest costume.

In the four year old group, Don Frazier took the prize for the Most Halloween, Gina Wingate for the Most Original, and Wendy Miller for the Prettiest.

The winners for the five-year

olds include Douglas Carter, for the Most Halloween, Chris Redd for the Most Original, and Ami Arenz for the Prettiest.

The first grade winners were Toby Flynn, for the Most Halloween, Shane McNeill for the Most Original, and Christa Boswell for the Prettiest.

The second grade winners were Emma Prevatt, for the Most Halloween, Jody Hartwick, for the Most Original, and Lee Ann McMullen for the Prettiest.

The third grade honors went to Courtney Corbin and Dee Dee Echols for the Most Halloween, Russell Miller for the Most Original, and Reagan McNeill for the Prettiest.

Winners for the fourth grade were Will Fontaine for the Most

Halloween, Bryant Hicks for the Most Original, and Sandy Mullis for the Prettiest.

Fifth grade winners included Saranell Lumpkin for the Most Halloween, Bruce Carter for the Most Original, and Angela Miller for the Prettiest.

Sixth grade winners were Maria Soler for the Most Halloween, Jennifer Goodson for the Most Original, and Erin Phillips for the Prettiest.

There was a good turnout for the carnival. One of the most popular activities was the dunking booth, especially when Ray Steadham, principal, was in the seat. All other booths seemed to do well, too.

FOURTH GRADE prize winners at the Christian Day School Halloween Carnival include Sandy Mullis for the prettiest

costume, Bryant Hicks, for the most Original costume, and Will Fontaine for the most Halloween costume.

# John Causey

Continued from P1

Florida about doing some variety studies here."

"This spring, we received permission and the day before we were supposed to harvest the first experimental crop, which was planted right beside the corn where a grower had his, the grower's corn was harvested."

"When we went out the next morning," he laughed, "that was the only bit of corn left for us." He said the paprika peppers were grown recently by Pahokee Produce, Inc. and could represent a new crop for the area.

Causey was graduated from the University of Florida as an agricultural major in 1937 and said his first job was as an agricultural agent for Seaboard Railroad in Palm Beach County.

"My job then was the same thing as it has been here," he said. "I was PR man for the railroad," saying Seaboard would offer advice to farmers along the railroad to try to attract their business away from the competition.

Causey worked in that position until he was drafted into the Army Air Corps in 1942, where he served as a photo-interpreter in military intelligence.

"I know I've used what I learned there more since then, to look at aerial photographs and identify what was on them here in Palm Beach County," he said, "than I ever did in the service."

Returning to Seaboard in 1946 after being mustered out of the Army, Causey said he found his job had been transferred to Savannah, Ga. and covered the central Georgia farming belt from Savannah to Birmingham, Ala., and I never did adjust.

He left Seaboard to become a packing house manager with a citrus company in Wauchula. "That was when the citrus industry was going from straight to concentrated juice and the two years it was in it was the worst two years the citrus industry ever had."

Causey came to Palm Beach County as an agricultural agent in 1948, taking over the county-wide 4-H program among his other duties. He came to the Glades in 1950.

The walls of his office offer a mute testimony to Causey's involvement in the Belle Glade community, with plaques and certificates commemorating his past presidency and long-time involvement in the Rotary Club, his positions as Grand Master of the Belle Glade Elks Club and Grant Master of the Elks for the South Florida District, being chosen twice, in 1968 and 1970 as the recipient of the annual Agri-Business Award handed out by the Chamber of Commerce, and awards for his activities in the state and national agricultural agents association.

Causey said he's been asked by many of his friends what he intends to do after retiring this week and his reply has remained the same: "Nothing. Oh, I'll be doing some fishing and a little traveling but why would I want to look for another job?"

"If I want to work," he said, "this is the best job in the world for me. I work with and for the best people in the world and I certainly couldn't make as much anywhere else."

## Harvesting updated

**BELLE GLADE** - An update on full mechanical harvesting of sugarcane was given Tuesday to members of the Belle Glade Rotary Club by harvesting expert Barney Eiland of the United States Department of Agriculture.

"We don't know when we'll have to go full mechanical," said Eiland. "It could be as long as ten years or as short as two. But it's getting closer."

Eiland said South Florida seems to be ideal for mechanical harvesting.

## Freight

**Continued from P1**

not water and sewer systems. He said he isn't particularly happy with the idea of regulating city electric systems but the legislature had laid the groundwork for that possibility, "but so as water and sewer goes, we don't want a thing to do with that. You keep them."

Council Assistant Program Chairman Broman Crompton asked Bevis if, when a master comes up relating to the interests of the area, a public hearing could be held in the Glades and Bevis responded that could and would be arranged.

"It may not be a hearing presided over by the entire Commission," he said, "but there's no reason a hearing with a hearing examiner shouldn't be here."

state and national agricultural agents association.

Causey said he's been asked by many of his friends what he intends to do after retiring this week and his reply has remained the same: "Nothing. Oh, I'll be doing some fishing and a little traveling but why would I want to look for another job?"

"If I want to work," he said, "this is the best job in the world for me. I work with and for the best people in the world and I certainly couldn't make as much anywhere else."

Cane fields have good roads, adequate drainage, and the right tonnage of cane. But there is an exception, that being that the rich muck will not keep the root system from being torn out of the ground in many cases by mechanical harvesters.

When this happens, stubble cannot re-grow for the next season and as a consequence, subsequent seasons see a drastic reduction in tonnage.

To point this out, Eiland said studies have shown that in test fields, the first year tonnage was 55 per acre, the second year 40 tons per acre, and the third year 20 tons per acre.

Most of the sugar companies are either experimenting now with mechanical harvesting or are doing some or all of the harvesting mechanically, said Eiland.

Five machines are now working in the Glades for USSC, Glades Co-Op, Tallisman, Oseola, Atlantic, and Moore Haven. Basically, the machines are the same as those first introduced into the Glades in the 1920's with certain modifications to allow them to "float" in the muck.

Some of the more promising are those developed by USSC, Glades Co-Op, J&L Equipment, and Massey Ferguson.

Eiland showed a film which showed the first harvester brought to the Glades in the '20s by USSC down to the latest ones now being developed.

## COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

**NOTICE OF FINDING**  
OF NO SIGNIFICANT EFFECT  
Notice is hereby given that the City of Belle Glade, Florida, has prepared an environmental review record on the projects herein described and has determined that said projects will have no significant effect on the quality of the human environment.

**Project: Emergency Home Repair** - Provision of Interim Assistance in the form of emergency home repairs, as part of the Rehabilitation Program to eliminate hazards to the health and safety of lower-income households throughout the City of Belle Glade. It is expected that during FY 1977, 78 approximately 20 such households will be assisted with an estimated \$50,000 of Rehabilitation funds.

**Project: Target Area 1 Expansion - Target**

**Painting & Decorating**

Interior & Exterior  
Residential & Commercial  
Robert Grant 813/983-6694

Area 1 has been expanded to include the one-half block north of SW Avenue E and the northern boundary, SW First Street as the eastern boundary; SW Avenue G and the canal as the southern boundary and SW 10th Street as the western boundary. Activities previously released for undertaking within the original boundaries of Target Area 1 are now proposed to be undertaken throughout the expanded Target Area. These activities include: Demolition and Clearance, Code Enforcement, Housing Rehabilitation, Land Bank Program, Relocation Program, as well as the Emergency Home Repair program described above.

The findings of no significant effect are based on the following:  
While the above described programs have significant benefits to the immediate neighborhood, the environmental impact is not considered to be of major significance within the context of the total human environment; in the achievement of local community-wide goals; or in the context of regional, state, HUD, or national goals or concerns, considering the scope and scale of proposed activities to be undertaken.

The environmental review records respecting said projects are available at the Community Development Department of the City of Belle Glade, 110 S. W. Avenue E, Place, Belle Glade, Florida, between the hours of 8:00 a.m. to 4:30 p.m., Monday through Friday, where the same may be examined. No further environmental review is proposed to be conducted on said projects; and the City of Belle Glade, Florida, intends to request the U.S. Department of Housing and Urban Development (HUD) to release funds for said projects.

Comments respecting the environmental

impacts of the above described projects may be submitted to the City of Belle Glade, City Hall Annex, 33 West Avenue A, Belle Glade, Florida 33430  
Hon. Thomas L. Altman, Mayor

## Clean-up Week coupons offered

**BELLE GLADE** - Clean-up Week, which began Tuesday and ends November 10, is a good time for city residents to paint and fix up their homes and businesses according to the Belle Glade Beautification Committee.

Three Belle Glade merchants offer discounts on gallons of paint, with Cone's Paint Store and Lake Hardware and Cone's Hardware offering 20 percent off with the coupon printed with this news story.

The Beautification Committee hopes for landscape at least one median strip on the newly four-lane SR80 during Clean-up Week.

As soon as the Department of Transportation approves the plan, work will begin, according to committee member Janean Gilbert.

Trees and shrubbery donated by civic clubs will be maintained by the city Public Works Department. Nine civic organizations have already promised to donate plants

for one median each. Three are left for three other groups to claim. Mrs. Sandy Boots, as chairman of the project by the Junior Woman's Club, has planned and coordinated the planting. She says the planting will take two weeks of work once the plans are approved by DOT and the process finalized.

Youth groups are planning their Clean-up projects. Scout, church, and school groups will participate and one will win a trophy.

"Belle means beautiful," Miss Gilbert said. "Let's make Belle Glade live up to its name."

## Johnson to sue?

BELLE GLADE The state was put on notice by William "Happy" Johnson last Thursday that it plans to build a solid waste facility adjacent to the existing city landfill go ahead, he will file suit to stop it.

Johnson, represented by Pahokee attorney Michael Stauder, was the only person at a public hearing held in the city commission chambers at city hall by the Bureau of State Lands who opposed the plans.

Johnson's land, which he said he had intended to develop as a trailer park, lies between the city's sewage treatment plant on one side and the city's existing landfill on the other side.

The proposed 26 acre facility, which would include a landfill, an incinerator and a mulching operation, would be immediately south of the existing landfill.

Johnson also asked Palm Beach County Solid Waste Authority (who is asking the state for the land) Director Tim Hunt if the facility would result in fish kills in two rock pits he owns.

Johnson has filed suit against the city because he claims effluent from reservoirs dug at the city sewer treatment plant have percolated through a muck dike into his rock pits and have killed fish there.

Hunt explained there would be no effluent to dispose of at the proposed facility, but, when asked by Johnson, said he didn't believe he would make plans to build a trailer park between a sewer treatment plant and a landfill and the site of another proposed solid

waste facility.

Fritz Stein, who said he believed he lives just outside 1,000 feet from the proposed site and owns property within 1,000 feet, said he has mixed emotions about the proposal.

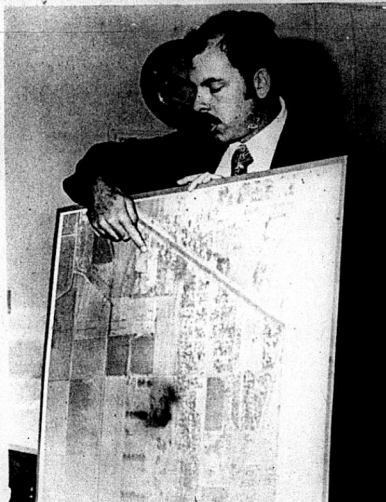

"I don't know whether I object or not," Stein told hearing examiner Stephen H. Barber, an attorney with the State Department of Natural Resources. "All of us agree this would be better than what we already have. I've smelled the smoke from the garbage dump all my life. The only objection I have is a potential smoke and odor problem."

"With an incinerator there," he said, "I don't know if it will hinder or help the development of the area."

Hunt pointed out during his presentation that the site chosen by the Authority fills all the state requirements and city officials in Belle Glade, South Bay and Pahokee have commented it is the best possible site available.

Barber said anyone who didn't speak at the hearing who has feelings about the site location, pro or con, can express those feelings by writing Ed Cederholm, State of Florida Department of Natural Resources, 202 Blount St., Tallahassee, FL 32304.

Barber said he will file his report in approximately two weeks and a hearing on the matter, with a possible decision, will be held in five to six weeks by the governor and the cabinet, sitting as the State Internal Improvement Fund board of trustees.

SOLID WASTE AUTHORITY DIRECTOR Tim Hunt points out on a aerial photo, during a public hearing last Thursday, the site of a proposed solid waste facility. Staff Photo

## Street survey asked

BELLE GLADE-The first positive action taken when the newly formed Mayor's Advisory Committee met for the first time Monday, night was to call for a survey to find how many merchants on Avenues A and B want those two streets one-way as planned by the city.

Four of the five committee members expressed definite dissatisfaction with the proposed one-way, with doubts of the need for the move being expressed several times.

Mayor Tom Altman said he was the only one of the four city commissioners who has opposed the one-way pairing of A and B, along with one-waying the block of Southwest Fourth Street between the two avenues.

He said he has heard figures to the effect that 70 per cent of the merchants along the two streets favor the pair but said he wasn't sure a survey had been done.

When James "Candy Man" Smith said he hadn't noticed any

undue congestion of traffic in the downtown area, Frank Teets agreed, saying he refuses to use one-way streets when possible, Altman explained, the proposal isn't meant to fight traffic congestion so much as relieve a parking problem.

Another problem the committee members discussed in depth was how to prevent truck traffic in the Southwest residential area, particularly along Fourth, Fifth and Sixth Streets and Southwest Avenue E.

Jerry Roberts brought the matter up, saying the trucks, particularly when loaded, present a hazard because of the congested nature of the streets, and asked if a truck route couldn't be established and enforced to prevent the traffic.

Altman said one solution might be to identify the trucks and notify the owners that their drivers were driving in the area, saying the owners probably don't want their trucks going into the area.

SEVERAL LOCAL BUSINESSES were caught up in the Halloween spirit this week, with employees and managers as well dressed in Halloween garb. At Everglades Federal, young Gerald Scheffler got a good look at Raggety Ann and teller Gail Jones. Gerald is the son of Mr. and Mrs. Thomas G. Scheffler of Belle Glade. Staff Photo

## Sugar to be short

Representatives of the south Florida sugar industry expect the 1977-78 sugar cane harvest to be somewhat less than last year because of the extremely cold weather last January which froze the young cane.

According to Don Walsh, spokesman for the Florida Sugar Cane League, the 1977-78 sugar cane crop will be an estimated 811,000 tons short of last year's crop. This projection for this season is 9,430,000 gross tons of sugar cane from approximately 300,000 acres which will yield some 895,000 short tons of raw sugar.

Actual sugar cane harvesting is to get underway next Monday with the Clewiston sugar mill expected to start grinding operations Tuesday.

Gulf and Western officials recently announced plans to resume operation of the Moore Haven Sugar House refinery in the near future. The Glades County Sugar Growers Cooperative sold the sugar house and refinery to Gulf and Western last year and sugar cane grown by cooperative members will be ground by G&W's Okeelanta sugar mill and by the Clewiston mill of USSC.

## Homecoming win clinches district title

THE PAHOKEE HIGH SCHOOL Homecoming queens for the 1977 Homecoming festivities. Center, Ms. Sandra Johnson and Ms. Betty Trimble was crowned the

homecoming queens. From left to right Ms. Sharon Williams, Ms. Tina Hill, Ms. Willie Mae Combs, Ms. Jane Jackie, Ms. Alfreda Eason and Ms. Windy Walker.

**PAHOKEE** With Friday night's 26-6 win over LaBelle, the Pahokee Blue Devils ease into the District playoffs, the District game to be played at home on Lair field on Friday, Nov. 25. As a longshot, Head Coach Antoine Russell said his Devils may be up against Pinecrest of Fort Lauderdale as the District 16 opponent, though that district winner may not be decided until the end of the season.

Before a spirited homecoming crowd, the Devils won their fourth and final Class A game, putting their season record so far at five wins and three losses.

Quarterback Ronnie Osborne led the Blue Devils to their fifth win, Osborne having been out of the action for two weeks due to a leg injury. It was a passing game, the Devils out-passing LaBelle with 189 yards to their 115. The Devils, with 129 rushing, held LaBelle to only 40.

Before the first fumble of the game, which led to Pahokee's first touchdown, the Devils attempted a

field goal which was no good. The Cowboys held Pahokee in a fourth and eight situation, but, on LaBelle's second down, quarterback, Ken White fumbled on his own seven yard line. The ball sailed into the end zone where Devil Lawrence Williams fell on it for the touchdown. The extra point, with 2:57 remaining in the first quarter, was no good, Pahokee leading 6-0.

Pahokee's next touchdown was scored on a 60 yard drive, capped off by a 52 yard Osborne pass to Stafford Everett with 9:41 left in the second quarter. The two point conversion run by Williams was good, giving Pahokee a 14-0 lead.

The Cowboys then drove 22 yards for two first downs but, up against the Pahokee defense, chose to punt on a fourth down with one yard to go. The Devils gained two first downs, one from a 32 yard pass to Vince Bush and the other from a carry by Williams, when time ran out in the first half.

(Continued on Page 8)

## Raiders lose to Suncoast

**RIVIERA BEACH** The Glades Central Raiders' won-loss record dropped to 2-4 Friday night, when the Belle Glade team again played a relatively even first half only to watch the Suncoast Chargers adjust and take over in the second half.

While the Chargers held a 14-0 lead going into the half, another indication of the way the game went in the first two periods was that both teams had a total of one yard rushing offense in that half, with Suncoast leading in the passing department by 89-56 yards.

Both teams had made several long runs during that first half but tackles made behind the line of scrimmage by both defensive units virtually nullified offensive efforts. Suncoast struck twice in the first quarter, beginning early when Alonzo Butts booted a punt to the Charger 20 yard line, only to have Anthony Carter pick up blocks as he streaked up the Glades Central sideline on an 8-yard scoring return. A two-point conversion pass play was good and the Raiders trailed by 8-0 with 8:23 left in the quarter.

The Chargers' second score

came two series' later when Carter scored again on a 20-yard pass play which capped a ten play drive starting at the Suncoast 12 yard line. No time remained on the clock by the time Carter ran into the end zone.

Suncoast threatened again only a few minutes later when a David Jones fumble was recovered on the Raider 7 yard line on the first play from scrimmage but the Glades Central defense held and the ball went over on downs four plays later on the Raider 17.

The Chargers were threatening still again when the clock ran out for the half with Suncoast holding the ball on the Glades Central seven yard line in a second and goal situation.

On the first series of plays in the third quarter, the Raiders came close to scoring, beginning with a return run by Terry Hampton from his own 20 to the Raider 43 before being dropped.

Ollie Sheppard, on the first play from scrimmage, ran the ball to the Suncoast 45 but a clipping penalty carried Glades Central back to their own 40. Quarterback David Jones hit Sheppard on the next play with a pass to Sheppard at

## Sports

midfield. Two plays later, David Robinson ran to the Charger 39; Jones hit Jeff Henry for a gain to the 32; Robinson ran again to the 28; and another first down at the 28. Two plays later, Henry was unable to hang onto a Jones pass in the end zone and the Raiders' hope went up in smoke two plays after that when the ball went over on downs with Jones being dropped on the Suncoast 46.

The Glades Central offense was offered a chance by the Raider defense only a few minutes later when George Graham recovered a fumble by his own 38 yard line and a flag sent the ball to the Suncoast 46.

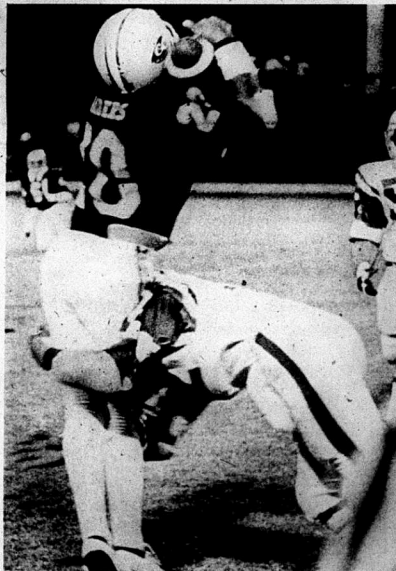

On the first play from scrimmage, Jones hit Sheppard again for a long gainer to the Suncoast 24 but the next play was almost a

replay of their earlier attempt to score when a Jones-to-Willie Williams pass was dropped by Williams in the end zone. Jones attempted three more passes but none connected and the ball went over on downs.

Suncoast was unable to move the ball on that possession but two possessions later carried the ball from their own 11 yard line to score in a six play, 69 yard drive, giving the Chargers a final score of 20-0 with 11:02 remaining in the fourth quarter.

The Raiders still hadn't given up, however, and managed to make a drive from their own 38 to the Suncoast 16 in three plays of the next possession, on a run by Robinson and two passes from Jones and Sheppard. They were

JEFF HENRY snags a David Jones pass early in the first half against Suncoast Friday, as a Charger drives in for the tackle without allowing any further gain. Staff Photo

## Terriers only hurdle left

## Gators advance in rankings and record

**BELLE GLADE** When the dust cleared Saturday afternoon after the Glades Day-Westminster football game, the score stood 34-0 in favor of the Gators.

And it could have been worse, according to head coach Byron Walker.

The game did two things quickly. It advanced the Gators from ninth to sixth in the statewide Class A rankings and it put the local team solidly at the top of their district.

But due to a surprise defeat of Kings Academy by Moore Haven, the Gators don't have the district championship wrapped up yet. They can do that by defeating Moore Haven in the last regular game of the season.

On the other hand, if Moore Haven defeats the Gators on

November 14 at Gator field, there would be a three-way tie between Glades Day, Moore Haven and Gold Coast for the championship and the top team would have to be voted on.

But based on the Gator's 3-0 district record, that's unlikely to happen.

Saturday afternoon, the Gators walked all over the field, building up a 21-0 lead at the half and in the latter part of the third and all of the fourth quarters, the second unit saw duty.

"They looked a lot stronger on film than they actually were," said Walker in commenting on the game. "We could really have run the score up."

The only problem with the victory, which advanced the Gators' record to 6-2, was that it

likely was a bit too easy. Pile on top of that this weekend's foe, Florida Air with a 1-7 record, and the Gators face the danger of becoming maybe a little 'too overconfident before meeting Moore Haven, a team that has been known to pull off some heavy surprises.

On the first series Saturday, the Gators kicked off and Westminster was obliged to punt three downs later. On the third Glades Day play, Quicke Echave raced 40 yards for the first score of what was to be a long afternoon for Westminster. Kenny Buckner tackled on the extra point and the Gators kicked the ball back.

But Westminster had to punt again and again on the third play, Steve Richie this time went off tackle and rambled 41 yards for

the score. Buckner's extra point was good and at the quarter change, the Gators led 14-0.

Just before the half, Winston Byrd caught a six-yard Tom Duda pass and put another 70 yards behind him on the ground for the third score. Again, Buckner split the uprights and the score was 21-0.

After halftime activities, the Gators received the ball and immediately were set, way back with three consecutive 15-yard penalties.

On a third and very long situation, Echave broke loose and moved to within two yards of a first down. Buckner was called on a blasted through, gaining the first down and on the next play, Duda hit his favorite target, Dick Crockett, good for 50 yards to the

Westminster two.

Buckner dove across for the score and added the point after, bringing the tally up to 28-0.

On their next possession, the Gators drove down to the 43 of Westminster, then called on Franco Ramos, who used the same off tackle play to break free for 61 yards and the score.

Buckner missed the point after, and the scoring wound down 34-0.

The second team was moved in and in the fourth quarter, quarterback Sammy Duda released a 40-yard bomb to Charles Schiele which had the Gators again knocking at the Westminster door. But time ran out with the Gators on the 12.

Statistically, the Gators gained 262 yards rushing and 176 in the air to 92 and 42 respectively for

Westminster. The hometown team threw ten times for four completions and Westminster threw 22 times for 14 completions and one interception. Both teams lost one fumble and the Gators racked up 77 yards in penalties but Westminster wasn't fined at all. In first downs, the Gators had eight to Westminster's seven.

The offensive standout was quarterback Tom Duda, who Walker notes "has been improving all year." The offensive line also came in for praise, having "blown people out" and created gaping holes for the backfield.

Not much was said about the defense, according to Walker, "because we really didn't get to play much defense." Westminster had only one sustained drive of 76

**PAHOKEE ISAAC NELSON** (65), takes off with the football while William Joseph (60) and Frank Walker (71) apply pressure to the Cowboys to clear the way for Nelson's

sideline spurt. The Blue Devils pleased a Homecoming crowd Friday night with a 26-6 victory over LaBelle. **Staff Photo**

## Pahokee High School Devils—

(Continued from Page 1)

Pahokee had 12 first downs in the game, LaBelle gaining eight. The Devils didn't sit still in the second half, scoring 12 more points. Pahokee's Michael Boldin made a three yard run for the Devils' third touchdown, capping off a 65 yard drive, and giving the Devils a 20-0 lead. The extra point failed.

It was a back-and-forth game in the third quarter, the ball changing hands four times before LaBelle's Calvin Pessin made a one yard run on a fourth down to clinch their only touchdown. The Devils' defense had held the Cowboys at the goal for three

downs. A two point conversion attempt failed, leaving the score 20-6.

The final scoring of the game came with 9:23 left on the clock. On the fourth down, needing 12 yards for a first, Williams sprinted 47 yards and across the goal line. The two point conversion was not

good, ending the scoring with Pahokee the victor, 26-6. LaBelle and Pahokee had one interception each, following the final touchdown, before the game ended.

This week the Pahokee Blue Devils have an open date.

## Changes in system mean changes for local library

By Janean Gilbert

**BELLE GLADE**—Has the public library ever ordered a book for you from another library? Well, now it will take even longer to get your book because it will have to come through the State Library. The county library in West Palm Beach isn't doing inter-library loans any more.

Why? you ask. Because the Palm Beach County Public Library System can't get the state and federal grants used to fund the

interlibrary loan program. Since four cities dropped out of the county system, the county library can no longer claim to serve the 15 percent of the county required to get state money.

So, as the Miami Herald says, the people lose. But before you blame the cities of West Palm Beach, North Palm Beach, Lake Park, and Delray Beach for getting out of the system, wonder why they did it. Some people, like the Miami Herald, think their feelings were hurt because the county library didn't ask their opinion on how to do things—like spend grant money.

Actually, there are two better reasons—a library reason and a city reason. The cities want money from the county based on their services to patrons from outside their cities. The libraries want better library service for all the county and think the county library should do a better job of coordinating that service.

Belle Glade is different from the cities on the coast. (As in all things!) Our city commission wants the library to keep serving the whole Glades area, not just people inside the city limits—even if we don't get any county money. Of course, the city and the library want to keep getting the money, which buys most of the library's books.

One more thing the coastal libraries are losing is messenger service: a courier from the county library used to deliver books and films three times a week. Belle Glade and Pahokee libraries won't lose this service because we never had it! All our films and interlibrary loan books have always come by mail.

What kind of county library system would you like to have? And how much are you willing to pay for it? Let your County Commissioners know.

Hours: Monday - Thursday, 10 a.m. to 9 p.m.  
Friday: 10 a.m. to 6 p.m.  
Saturday: 10 a.m. to 5 p.m.

## Roy Edwards completes

Navy Seaman Recruit Roy D. Edwards, son of Ruth Edwards of 1017 NE 28th St. in Belle Glade, has completed recruit training at the Naval Training Center in Orlando.

During the eight-week training cycle, trainees studied general military subjects designed to prepare them for further academic and on-the-job training in one of the Navy's 85 basic occupational fields.

Included in their studies were seamanship, close order drill, Naval history, and first aid. He joined the Navy in August 1977.

## St. Peter's carnival is success

**BELLE GLADE**—The big winners of the St. Peter's Lutheran School carnival giveaway Saturday were Mrs. Jane Burns of Belle Glade and Jimmy Rodgers of South Bay.

Public Relations Officer Victor Van Kanegan said Mrs. Burns won first prize in the giveaway, a Sharp color television from Earl's Service Center, and Rodgers won the aluminum rotisserie kitchen from Lake Hardware.

"Everyone had a great time," Van Kanegan said. "All our activities were a huge success. We would like to thank everyone who worked for the carnival. Also we would like to thank the members and friends of our school and congregation that turned out to make it a big success."

**A BIZARRE BAZAAR** was part of the show Saturday when St. Peter's Lutheran School put on its annual Halloween Carnival. Caught arguing over who was going to buy an apple cake were Bert Ward and Lynette Thompson.

**A CANDY-THROWING FIRE TRUCK** was part of the festivities Saturday during the St. Peter's Lutheran School's annual Halloween Carnival when kids scrambled for the sweets scattered by Belle Glade firemen who'd just arrived in the 'smokeeater's' wagon. **Staff Photo**

## Quartet to sing in Belle Glade

The Rebels Quartet of Tampa, will present a program of gospel singing and music this Saturday, Nov. 12 at 7:30 p.m. at the Belle Glade Church of God, 301 S.E. Avenue E.

Personnel of the Rebels Quartet are Ronnie Booth, Jimmy Taylor, Lee Kitchens, and Ken Huey. Invite your gospel music fans to come with you to hear the Rebels Saturday night.

## Counselors to address group

BELLE GLADE - The Division of Vocational Rehabilitation will present two local counselors at the Community Services Council meeting at 12:30 p.m., Wednesday, Nov. 9, in the Glades Office Building.

Mrs. Eva Reese, V.R. Counselor II, will speak of the adult services available in the Glades through her agency.

Robert Bennett, V.R. Counselor II, will explain the areas in which students may qualify for assistance.

Invitations are extended each month to all citizens, school and agency personnel, to attend the important information exchange assembly.

Additional information may be secured by calling Mrs. Gene R. Cross, Chair Person, and Area Supervisor of Palm Beach County Social Services, at 996-5547.

## Hypertension tests offered

BELLE GLADE - Blood pressure tests designed as checks for hypertension are being offered without charge to the public every Monday from 1 to 4 p.m. at the Belle Glade Health Center at 1024 N.W. Ave. D.

In the past few weeks my article has been on the inner family relationship with God and each other. While continuing this trend I am reminded of the story of the little boy whose mother gave him two quarters. As she dressed him and carefully got him ready for Sunday School her instructions were, "One quarter goes to God, give it to Sunday School and with the other quarter you may buy some ice cream on your way home." When church was over the lad returned with his ice cream. As his mother greeted him with a kiss, her comment was, "I see you have your ice cream. Did you remember to give God his quarter?"

The sheepish reply of her son was, "well you see mom, on my way to church I was running and I lost God's quarter." While some of us might find this humorous, others of us might realize that we

have wasted or even lost that which is God's, by giving Him only the second part of our lives.

As in the parable of the servant and the talent, the master of the house gave each of his servants money to be used while he was away and upon his return he found all but one had used his money wisely. The servant did not waste his talent, but he did not increase his talent and the master of the house was angry for this servant's lack of priority.

Today we ask ourselves what our priorities are and most times God, our creator, the giver of life is at the bottom of the list. It might be wise to reevaluate our priorities and give God first and foremost that which is already His. Not just material possessions but give Him our most valuable possessions; our time, our talents, but most of all ourselves.

GOD...WANTS...YOU!!!

## St. Philip Benizi's Altar Society announces its fall festival

BELLE GLADE - The St. Philip Benizi's Altar Society announces its annual Fall Festival to be held at the church, Sunday, Nov. 13 from 3 p.m. to 7 p.m.

There will be a sloppy joe dinner, hot dogs, corn, desserts, a bazaar, games, a country store, tractor rides and many other attractions.

Tickets for the drawing of a color TV, a real live pony and a Western Flyer bike, may be obtained from members of the

society or at the church. Come and enjoy the Fall Festival!

### CARD OF THANKS

We would like to thank all the people, and all the doctors and nurses at Everglades Memorial Hospital for all the love and care that they gave to our mother, Mrs. Annie Moore.

## Vida Cristiana Latina

ESCRIBE: JOSE ANTONIO GARCIA

Hoy vamos hablar del origen pagano de la doctrina de "La Trinidad" mas conocida por el "Santissima Trinidad" Si a usted le gusta investigar, y tiene una mente inquisitiva, y le gusta la verdad de los hechos, este artículo le será muy de su agrado, pues lo pondrá al tanto de hechos históricos hasta ahora desconocidos para usted. VERAMOS: La creencia de la trinidad se remonta a épocas muy remotas de la historia humana y fue adoptada por la cristiandad y enseñada por 16 siglos - la feligresía ignorante tanto de la Biblia como de su origen histórico. La Trinidad se creía en las siguientes religiones paganas antes que en las cristianas: Babilonia, Anu-Belo-Hea, Egipto, Serapis-Isis-Horus, Budista, Buda-Budhist-Gotama, Hindu, Brahma-Visnu-Siva, Griega, Zeus-Athena-Apolo. Los cristianos primitivos NUNCA creyeron en la "Trinidad", y no fue hasta el cuarto, siglo en el 325 d.d.C. que se produjo una división en el cristianismo ya decayente sobre la persona de Jesus y Dios, en cuanto a si eran co-eternos o no, y esto le dio la oportunidad al Emperador Constantino, para convocar un concilio en Nicea Asia Menor, el cual decidió el mismo constantino, sin ser cristiano ni papa.

Allí discutieron el asunto O. de Cordova y Arrio. O. de Cordova apoyaba la idea de una trinidad y Arrio la rechazaba lo cual le costo el destierro y ser considerado hereje. Constantino se inclinó hacia la opinión de O. de Cordova y se introdujo la doctrina como un dogma, pero como no aparecía tal palabra o idea en las Santas Escrituras y a la vez INEXPLICABLE la llamaron un "misterio". Mas tarde despues de la "Reforma protestante" encabezada por Martin Lutero por el 1515, las religiones protestantes acogieron en su seno el dogma sin escrúpulos de ninguna clase, y sin la debida investigación de los hechos. Claro, hay algo que los líderes religiosos temen mucho, y es la investigación escueta de los hechos, que derumban las tradiciones y desmoronan dándole entrada a la palabra de Dios, y a veces a la propia historia según como en este caso.

Ahora una nota histórica: Citando del libro "Que ha hecho la religión por la humanidad?" en la página 286 dice textualmente: "Durante la última parte del siglo dos, Teofilio el llamado "obispo" de Antioquia en Siria...el introdujo en su doctrina la palabra trías (En griego) que quiere decir "trías o trinidad" ...Un contemporáneo de Teofilio en el norte de Africa, un escritor latino llamado Tertuliano, en sus escritos la palabra "Trinidad" que quiere decir trinidad, desde entonces en adelante la doctrina trinitaria llegó a infectar mas y mas la creencia de los cristianos profanos... la palabra trías (En Griego) ni siquiera se encuentra en las inspiradas Escrituras...ni en la traducción latina de la Vulgata. Un escritor de esa época llamado Virgilio de Tarsus al sur de Cartago hizo una cita en sus escritos latinos que ha llegado a ser los versículos 7 y 8 del br. Primera de Juan capítulo 5 que usa la versión Valera y que es apócrifo y que también aparece en la versión católica de le Dr. Felix Torres Amat.

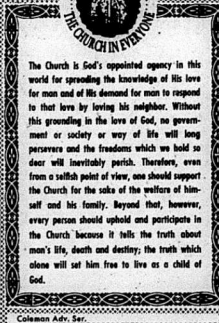

Seria interesante que usted por si mismo buscara en una Biblioteca una buena Enciclopedia o Historia como autoridad e investigara por usted mismo la realidad de los hechos respecto al origen pagano de esta falsa creencia, para que sea libre por medio de la verdad de los hechos. (Juan 8:32) Deje que en su mente y corazón entre solo el agua limpia de la verdad, deseché todo lo que es de origen babilónico y pagano. INVESTIGUE Y LEA SU BIBLIA!

# IN A HURRY!

It's Sunday! An exciting day! I've planned so many interesting ways to present God's love to the wee small people I'm teaching. How they love God and His church! They are always there early. Must hurry! My young ones want to be there early too. How pleased our Father in Heaven must be to see so many preparing excitedly and happily to have a worship experience with Him.

See you there in a very little while!

Psalm 26:8 "Lord, I have loved the habitation of thy house, and the place where thine honor dwelleth."

The Church is God's appointed agency in this world for spreading the knowledge of His love for men and of His demand for men to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which are held so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Calson Adm. Ser.

## Legal Notices

**LEGAL NOTICE**  
Notice is hereby given that the Board of Supervisors of the South Florida Conservancy District will accept sealed bids for the sale of approximately 15,000 cubic yards of surplus rock removed from the District's Canal. This material is located along the west bank of Canal #1 in Sections 11 and 12, Township 44 South, Range 26 East. All bids shall be based on the purchase of material as is, where is.

Bids will be received prior to 1:30 p.m., November 8, 1977 and will be publicly opened by the Board at the time.

For inspection of the material and receipt of Special Instruction for removal of same, contact Fred W. John or James Kilpatrick at the District's office weekdays between 8:00 a.m. and 5:00 p.m., telephone 996-2940 or 996-2950.
